Dear Mr. Tom McLeod,

We have received your promotional letter and brochure about Grey Suit, video for Art & Literature. We find Grey Suit very interesting and appealing. Your editions will certainly complement and give important information concerning contemporary art.

The EAV is the school of visual arts of Rio de Janeiro. We are a non-profit organization dedicated to the visual arts. Our school is a state school but it is maintained almost entirely by the monthly fees paid by its students. It is a very important centre for the production of contemporary visual art but it is a poor school, financially speaking, in a country that is going through a very difficult economic period.

We would like, very much, to have access to your editions but, unfortunately, we cannot afford a subscription. If you are willing to donate us a subscription be sure that we will make the best use of it, and we would be very grateful.

We look forward to hearing from you.

Yours sincerely,

*Ruth Lifschits*
